

## Enhancing Tactical Operations with EvertzAV Unified RF, IP, and Video Solutions at WEST 2025

*Empowering Military Teams with Real-Time Communication and Intelligence Tools*

**San Diego, CA — January 22, 2025:** EvertzAV is proud to showcase its unified mission-critical RF, IP, and Video distribution and playback solutions at WEST 2025. Designed to enhance tactical operations, these integrated systems ensure reliable communication and actionable intelligence in the most demanding environments.

By combining Quintech's RF distribution systems with EvertzAV's advanced video and transport technologies, military units can access granular insights through real-time video and data analysis, slow-motion playback, improving mission planning and after-action reviews.

### Key Features of EvertzAV Tactical Solutions:

- **Low-Latency RF/IP Distribution:** Ensures continuous, high-quality communication across vast distances.
- **Integrated Video Systems:** Real-time, low-latency intelligence sharing for informed decision-making.
- **Scalable Deployment:** Seamlessly integrates into existing defense infrastructure.

Join EvertzAV at WEST 2025, Booth 1711, to explore how our unified tactical solutions can elevate operational efficiency.

## **About EvertzAV**

EvertzAV (<https://av.evertz.com>) is a division of Evertz Microsystems, (TSX:ET, <https://www.evertz.com>) a global leader in mission-critical, ultra-low latency video, audio, and data solutions for government and defense sectors. These capabilities, enhanced by Quintech and ATCi—enable real-time ISR (Intelligence, Surveillance, Reconnaissance), secure media transport, SATCOM, and advanced signal management, ensuring seamless situational awareness, command and control, and tactical communication in complex environments.

For over 15 years, Evertz has delivered cutting-edge technology for secure fiber and RF signal management, image processing, and satellite communications. Quintech and ATCi enhance Evertz's ruggedized systems and reliable solutions, tailored to demanding defense applications worldwide.
