

**FOR IMMEDIATE RELEASE**

Enhancing tactical operations with EvertzAV unified RF, IP, and video solutions for the defence industry at DSEI Japan 2025

Burlington, Canada. May 8, 2025: EvertzAV is set to unveil its advanced unified solutions for tactical operations and command and control systems at DSEI Japan 2025. These mission-critical technologies, developed in collaboration with Quintech, integrate RF, IP, and video systems to enhance operational coordination, situational awareness, and real-time decision-making in military and defence environments.

EvertzAV's cutting-edge systems deliver secure, low-latency communication, real-time video analysis, and scalable deployment options, enabling defence teams to assess and act rapidly on critical information, ensuring seamless communication and intelligence in high-pressure tactical and command scenarios.

Key features of EvertzAV command and tactical solutions:

- **Real-Time Monitoring and Control:** Multi-image, multi-layer monitoring with integrated video playback for situational awareness and post-operation evaluations.
- **Low-Latency RF Distribution:** Ensures fast and reliable communication across tactical units for enhanced coordination.
- **Scalable and Reliable Infrastructure:** Flexible systems that integrate seamlessly into existing infrastructures and support 24/7 mission-critical operations.
- **Secure and Unified Platform:** Combines RF, IP, optical, and baseband technologies for seamless communication and intelligence sharing in high-stakes scenarios.

EvertzAV's unified solutions empower defence teams with the tools to streamline workflows, enhance decision-making, and ensure mission success across tactical operations and command centres.

Visit EvertzAV at DSEI Japan 2025, Booth H8-213, to discover how these integrated systems are redefining command and tactical operations for the modern defence landscape.

About EvertzAV

EvertzAV (<https://av.evertz.com>) is a division of Evertz Microsystems, (TSX:ET, <https://www.evertz.com>) a global leader in mission-critical, ultra-low latency video, audio, and data solutions for government and defense sectors. These capabilities, enhanced by Quintech and ATCi—enable real-time ISR (Intelligence, Surveillance, Reconnaissance), secure media transport, SATCOM, and advanced signal management, ensuring seamless situational awareness, command and control, and tactical communication in complex environments.

For over 15 years, Evertz has delivered cutting-edge technology for secure fiber and RF signal management, image processing, and satellite communications. Quintech and ATCi enhance Evertz's ruggedized systems and reliable solutions, tailored to demanding defense applications worldwide.
