

EvertzAV announces unified SATCOM solutions for resilient and secure military communications at ISE 2025

Evertz will showcase advanced SATCOM and C4ISR Systems for Military and Defense Applications at this year's ISE Show in Barcelona.

Burlington, Canada. January 30, 2025: EvertzAV is pleased to unveil its unified mission-critical SATCOM and C4ISR solutions at ISE 2025. Developed in collaboration with Quintech and ATCI, these cutting-edge systems are designed to meet the stringent demands of military and defence operations, ensuring secure, reliable, and resilient communication in high-stakes environments.

Evertz's advanced SATCOM solutions leverage industry-leading technologies such as RF-over-fiber, RF-over-IP, Simulcast multibeam antenna systems, and advanced encryption protocols to deliver robust support for real-time intelligence sharing, mission-critical data transmission and disaster recovery. These systems are engineered for unmatched performance, even in extreme operational conditions.

Key Features of Evertz SATCOM Solutions

- **End-to-End Integration:** Unified hardware and software workflows provide seamless, secure communication for both local and global operations.
- **Mission-Critical Resilience:** Designed for 24/7 reliability, these systems ensure continuous operation under the most challenging conditions.
- **Scalable and Cyber-Resilient:** Flexible, future-proof solutions tailored to meet evolving defence requirements while maintaining robust security.

Evertz's SATCOM systems empower military and defence organisations with the tools and hardware necessary for modern communications, enabling efficient and secure information exchange across diverse scenarios.

Visit Evertz at ISE 2025, Stand 4R660, to experience how these state-of-the-art solutions are redefining secure military communications.

About EvertzAV

Evertz is a global leader in mission-critical, ultra-low latency video, audio, and data solutions for government and defense sectors. These capabilities, enhanced by Quintech and ATCi—enable real-time ISR (Intelligence, Surveillance, Reconnaissance), secure media transport, SATCOM, and advanced signal management, ensuring seamless situational awareness, command and control, and tactical communication in complex environments.

For over 15 years, Evertz has delivered cutting-edge technology for secure fiber and RF signal management, image processing, and satellite communications. Quintech and ATCi enhance Evertz's ruggedized systems and reliable solutions, tailored to demanding defense applications worldwide.
