FOR IMMEDIATE RELEASE

EvertzAV' MMA10G-TRS4K-2 standalone HDMI 4K/60 4:4:4 network based transceiver, supports bi-directional transport of 4K content up to 4096x2160p @ 60fps 4:4:4 color sub-sampling. The MMA10G-TRS4K is the latest 4K product to join the MMA-10G network-based AV distribution family.

The TRS4K standalone gateway has two 4K/60 HDMI inputs and outputs, plus a compliment of analog audio and USB, allowing it to transmit and receive two 4K images at the highest visual quality and lowest latency all over a single 10GE network connection. The new TRS4K works seamlessly within Evertz' MMA-10G network-based distribution platform offering backwards compatibility while at the same time providing the latest generation of HDMI interfaces to customers looking to upgrade to 4K today or in the future.

About EvertzAV

EvertzAV is a division within Evertz Microsystems exclusively focused on the professional AV marketplace. Evertz Microsystems is a global leader in the design and manufacturing of professional audio and video infrastructure equipment addressing several vertical markets. With over 1200 employees and 40 years of experience, Evertz offers the most complete end to end solutions for AV distribution and visualization, including video wall technology, routing, video record and playback, fiber extension, video over IP and RF satellite solutions.
